

Alfred Binet	<p>The Mind and the Brain By Alfred Binet (1857-1911) being the authorized translation of <u>L'âme et le corps</u>, F. Legge, editor</p> <p>“This book is a prolonged effort to establish a distinction between what is called mind and what is called matter. Nothing is more simple than to realise this distinction when you do not go deeply into it; nothing is more difficult when you analyse it a little. At first sight, it seems impossible to confuse things so far apart as a thought and a block of stone; but on reflection this great contrast vanishes, and other differences have to be sought which are less apparent and of which one has not hitherto dreamed.” (from <i>The Mind and the Brain</i>) Total running time: 06:49:51.</p> <p>01 – The Definition of Matter: Introduction – 00:08:19 - Read by J.
